**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN
NEW SOUTH WALES**

Name: Name suppressed

Date received: 26/07/2012

Partially Confidential

I would like to know why the southern side of DURRAS LAKE is being made into a wilderness area. with all the tracks being blocked off with boulders or gates and deep trenches being cut into the land around the lake so you cannot get a car near the water. (REAL GREEN)

THIS AREA IS A NATIONAL PARK and should NOT be closed off to the general public. It is alright for the back packing greenies who have healthy bodies to walk into the lake BUT for someone with a disability that has to rely on a car to get into the lakes edge to fish, it's not fair.

THIS IS WHAT I CLASS AS DISCRIMINATION AGAINST THE DISABLED.

I THOUGHT THESE DAYS WE WERE TRYING TO MAKE THINGS MORE DISABLED FRIENDLY

I would like to show you or your representative what I mean.

I would suggest that the roads to the lake be reopened and upgraded so people can access the lake, even a small carpark so disabled people with wheelchairs can use the area because beleive it or not they like to fish as well and they like the feeling of being in the bush with nature,

I have lived at Durras for the past 20 years and loved going through the bush to the lake to fish and walk around but unfortunately this right has been taken away from me.
