

## INQUIRY INTO NSW WORKERS COMPENSATION SCHEME

**Organisation:** Name suppressed  
**Date received:** 17/05/2012

---

Partially Confidential

I endorse the Motor Traders Association of NSW submission for changes to the NSW workers compensation as a Franchised Motor Dealer in NSW that include the Association managing the premiums and injured employees of the Motor Industry for a variety of reasons that would be set out in their submission but also to reduce the excessive premium paid by the NSW Motor Industry compared with that of interstate premiums and the better management of the employee based on the experience we have had by poor case management for the benefit of both the employee and the employer

As an example the MTA did a substantial study and prepared an application to be the motor industry Workers compensation administrator that revealed at that time it could give an employer a minimum 30% reduction on the premiums at that time also being industry specific have better and sustainable outcomes for all concerned
