**INQUIRY INTO THE PRIVATISATION OF PRISONS AND
PRISON-RELATED SERVICES**

Name: Miss Melissa Seymour

Date received: 24/02/2009

The privatisation of prisons is an ill-conceived idea. The idea of earning profits from prisoners will completely remove any chance of rehabilitation. Why would prisons be enticed to release their pay-cheque? The potential for a judicial corruption in the form of kick-backs; meaning that incarceration rates as punitive punishment will be more enticing. We should not choose profit over rehabilitation.
