**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN  
NEW SOUTH WALES**

I would like to submit my strong plea that the National Parks are left as is and that no reducing of their protection be allowed.

My family and I have enjoyed many hours in the national parks over the years. We enjoy them for their diversity and their natural abundance.

I also see them as a bank of fauna and flora that can be there for the future. For scientific as well as protection of species.

I would like to see them increase in size, with more additions to them.

The idea for instance that the shooters' party could use these areas for shooting is absurd and I would hope that this would not be allowed.
