

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

I feel very strongly that marriage is between a man and a woman, for life.

Marriage between a man and a woman only, gives the best balance for the rights of the child to a safe and moral upbringing in our society today. Marriage laws and definitions should not be changed or tampered with.

Last year parliament voted 2 to 1 to preserve the definition of marriage, it is a waste of parliamentary time and resources to be revisiting this issue again, on account of a minority group.

I have been married for 25 years and we successfully raised 4 children, so feel that I am qualified to support my claims.

The Australian Parliament has responded to the majority of its constituents by already addressing this issue, and voting to keep marriage laws as they stand, and have stood strongly since their inception, so please stop wasting parliamentary resources, our taxes, by continuing to revisit this issue. Leave marriage as it stands.
