

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Miss Melissa Whatford

Date received: 28/10/2013

Greyhounds die every single day for no purpose at all except for not being born 'good enough' to earn money for others who don't have the ability to earn a living any other way except to exploit these beautiful creatures. It is a barbaric 'sport' (and I use the term loosely) which needs to be stopped. I can find no tangible reason for this to continue except to line the pockets of all involved. No compassion is shown to the thousands of greyhounds killed every year. If you have any evidence to contradict the views of myself any many others I would love to hear them...

Please feel free to contact me at any time.

Regards
