Summary

General purpose Handy Committee 49.3
 Issues relating to Cosmetic Reamer.
 Parlour House
 Sydney

Dear Sir,

I had work done at Ashdownwater
 mainly gluing leather pieces to metal clips.
 The first effort was satisfactory so I repeated
 my order and I think increased the number.
 The results were disastrous - a poor job indeed
 costing me extra for leather replacements as the CSI
 Warranty does not cover that only offers to
 repeat the work done - what sort of warranty
 is that?

My job required the use of Carter Cement but
 was used like Torgans Comp or Super glue
 rendering the whole job useless.

Whichever was supervising, only needed to read
 the instructions.

I don't blame the worker - I blame the
 Supervisor and the manager who is NOT an

her office, and why should he have a Post Office?
— let him get back to his office and conduct
business there.

I can't see CSI being a threat to anyone,
or any industry other than themselves.

Yours Truly,
