**INQUIRY INTO THE PRIVATISATION OF PRISONS AND
PRISON-RELATED SERVICES**

Name: Mr Peter Duggan
Date received: 26/02/2009

I strongly object to the privatisation of prison on the ground that the accountability of Government departments and their staff are of the highest standards. The practices that are in place including ICAC have resulted in Government departments being more accountable for their actions. I don't believe a money making exercise by private enterprise will uphold the high standards our public department now have. They will cut cost to make a profit. The only people that will benefit will be their shareholders not the people of NSW or our prison population. I have always had faith in the way prisons have been run in NSW and I would like them to remain as they are.

Thank you

Peter Duggan JP
