INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 16/10/2013

Partially Confidential

Dear Director

Hello, I am a member of Animals Australia.

I beg of the Greyhound Racing Committee to look into and address allegations of cruelty to greyhounds in the industry. As a dog lover, the things I read about these poor animals sickens and saddens me. They should not be over-bred or sent to countries where they will be cruelly abused and die in agony, because there are no laws protecting their rights. There should be tighter restrictions in our country on owners and trainers, and prosecution should be carried out where abuse or drugging has been proven. We have these laws to protect our animals: When will abuse and cruelty ever end.

It's hard to believe it still goes on, but people will do anything when it comes to making money, without a thought of suffering of others.

I thank you for your time in reading my submission for the rights of greyhounds in the racing industry.
