## **THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR**

**Name:** Ms Harpreet Suri

**Date received:** 1/10/2008

---

Hello

I travel to the city for work everyday. I have to start work at 10:30am and the bus service after 9am is appalling. I have made many complaints to the Hillsbus, but nothing has changed for the better. The 9:20am bus (Castle hill bus stop) comes usually 20 minutes late and as a result I am always late for work.

I have payed a premium price to buy a house in the hills area, but the pathetic state of public transport to the city and North sydney makes me feel probably living in Blacktown was a beeter option.

Also the public transport is very expensive costing \$5.80 each way.

I think the government has a responsibility of providing basic public transport facilities and it has absolutely failed in this regard in the Hills region.
