

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr & Mrs Bruce & Cora Heid

Date received: 7/02/2013

Marriage between a man & a women has been the foundation of western society for thousands of years, and a relationship between a married couple is the strength of the family.

Proposals to open up marriage to gay couples are a threat to the family structure, to the proper raising of future generations of Australians and the foundation of Australian society.

We urge you very strongly to oppose any changes to the current legislation concerning marriage, and to maintain marriage between a & a women as the foundation of Australia's future.

Yours Sincerely,

Bruce & Cora Heid
