## **THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR**

**Name:** Mr Kiran Shah

**Date received:** 17/10/2008

---

I have been living in this area since 1994 and since then we have seen massive development in the area spreading from Castle Hill, Kellyville, Rouse Hill and beyond, adding hundreds if not thousands of dwellings to this area. At the same time the only improvement in the transport facilities has been the widening of Windsor Road by one lane on each side and a bus lane. Even then we are desperately short by way of public transport and have an urgent need of a train link to the city, more buses and more frequently, etc.
