

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Mrs Sandra Kapoh

Date received: 17/10/2013

Dear Ministers,

We just want to share my concerns with you, and as you are in the right position to make a difference, I'd like to politely ask you the following:

To first review and (re)regulate thoroughly the provisions that (should) protect the animals in the racing industry from mistreatment

At the moment the welfare- and animal friendly treatment regulations for those animals is by far insufficient. There is a lot of cruelty going on in the racing industries and while I understand that it is a money making industry, we should act as the civilized human beings that we are. Getting financial gain over suffering animals, should be something far from us and should be a number one concern in government policy!

With thanks for listening and hoping you will make a civilized change happening,

Kind regards,
Family's Kapoh and Dral
Brisbane
