**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN
NEW SOUTH WALES**

I am informing you off my total disagreement with any change to management of gazetted National parks or conservation reserves.

I know the goverment has problems meeting their log quoter to sawmills,but this is a problem cause by the goverment. To log the park system will be a disaster to arboreal wild life. A lot of the bettered timbered national parks on the north coast were forestry flora reserves,so you think some politians should decide if the the last of the best should go. I dont think so.
