INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 9/02/2013

Partially Confidential

I believe that to give each precious child the chance to be raised to responsible balanced adulthood, they need to have the stable social context of a committed marriage between a man and a woman.

Mothers and fathers bring different, and very necessary approaches to parenting. Boys need the parenting of both a mother and a father to become a balanced adult man. Also girls require both their Mum & their Dad to become a balanced adult woman. Children get their identity and their self confidence by having the unconditional love of both their mother and their father in a committed marriage.

For these reasons I believe marriage should remain as the union of a man and a woman only.
