**INQUIRY INTO USE OF CANNABIS FOR MEDICAL  
PURPOSES**

**Name:** Mrs Janine Thurgood

**Date received:** 12/02/2013

---

To Whom This May Concern

I am a 60 year old Mother of 2 and grandmother of 3 and I find it very hard to believe that with all the knowledge and information that is freely available online about the multitude of uses of Hemp, That is still illegal to grow or use it!!

I have recently spent many years researching the subject in detail to find out why this the case and the only valid reason I can come up with is GREED!

If this government truly cared about Australia, the people and even the World, they would immediately not only legalise it but make it mandatory for everyone to grow it!

Because Hemp can produce everything we need! For example:

Medicinal purposes

It has been proved that hemp oil can assist in curing many diseases such as:

- \* Cancer
- \* Diabetes
- \* Aids
- \* Alzheimers
- \* Dementia

And many other ailments, it can also help the sick to regain their appetite, sleep better, suffer less pain and enjoy a much better way of life.

Please take the time to watch this very informative documentary titled " What if cannibas cured cancer"1

Building materials

Building homes using Hempcrete instead of concrete can not only be one of the best building materials known to man, but it will also benefit the environment immensely, Please take the time to watch this documentary titled " Hempcrete Technology"

<http://youtube.com/watch?v=MoYIBdzZYWI>

Hemp is the most durable longlasting fabric known to man

Hemp is one of mother nature's most remarkable plants with it's strong fibres and nutrient rich oils, it's benefits are amazing.

Hemp is fantastic for soil/eco systems.

Hemp is an amazing super food full of omega ,6,9 and high in protein

Hemp is a multi purpose product with over 5,000 uses including food, clothing, fuel, medicine, building materials, paper and more.

By making conscious decisions when we purchase we can change our planet, its people, our health and our future!

Blessed are the peacemakers. (Matthew 5:9)

It was God who created cannabis hemp and told mankind to use "every green herb" on Earth. The Bible speaks of mercy, healing and a persecution of God's children. They persecute me wrongfully; help thou me. (Psalms 119:86) Prisons and drug wars do not save souls. The Lord... hath sent me to bind up the broken hearted, to proclaim liberty to the captives and the opening of the prison to them that are bound. (Isaiah 61:1)

“Mothers throughout history have come forward for the sake of their children,” says Gretchen Burns Bergman, executive director of Parents for Addiction Treatment and Healing (PATH). “We’re coming forth saying that the drug war has been more damaging to our families than the drugs themselves.”
