Legislative Council Home Schooling Inquiry

I have known a family who has home schooled their children for over a period of 10 years in a capacity as Sunday School Camp Leader.

At all times these children aged between 10-12 have been respectful, honest, willing to help others, good communicators, well mannered, attentive, engaging and kind to others.

Their parents are hardworking, caring, and supportive and always strive to better their children's educational, social, sporting environments.
