

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Ms Susan Davey

Date received: 6/02/2013

To whom it may concern,

It greatly concerns me that decisions may be made on my behalf to legalise same sex marriage in Australia. I would like to state that my family and I are against strongly opposed to same sex marriage being legalised. It is our view that marriage is sacred between man and women. I have been extremely disturbed with the “normalising” of homosexual activity. I do not believe I am in the minority in this thinking although the homosexual lobby would have you believe otherwise. I am extremely concerned as to where the line of right and wrong is being drawn. I have no doubt in my mind that if we continue on this path of normalising same sex relationships and marriage it won't be long before it is considered normal to have a relationship with a minor or an animal. That may appear shocking and extreme or even ridiculous now but I am sure that is how homosexual activity appeared 50 years ago. I would like to take a stand against this movement now and express my strong opinion against legalising same sex marriage in Australia.

Sincerely,

Susan Davey
