THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Suppressed

Date received: 16/10/2008

Partially Confidential

If Federal & State governments are serious in urging taxpayers to reduce car usage, then let them cease the vote-catching promises provide ratepayers in Sydney's North-West with a rail system & decent bus services. The overcrowding & unreliability of the bus services to the city via the M2 motorway are legendary and this situation must cease.
