INQUIRY INTO GREYHOUND RACING IN NSW

Name: Miss Ebony-Anne Quinlivan

Date received: 4/11/2013

Dear Sir or Madam, there comes a time when industry expendability cannot over-weigh humanity and right practice. Grey-hound racing needs to be regulated with integrity and honour. Seriously, can you imagine your own family pets killed, (lets not euphemise the real meaning of euthanasia), simply because of its speed or lack of it? There is no vision in such treatment, no awareness of the intelligence and scope such animals have to offer. Please protect these smart and intelligent creatures with guidelines that reflect humanity, dignity and awareness of a greater outcome for all concerned, especially the stars and the 'falling' stars of the show, who may have failed to nail a fake rabbit, but other than that are still perfectly legitimate and highly cognitive animals not deserving of such ill-considered treatment. Very best wishes to you, cheers, E. Quinlivan. quinnyswan1@gmail.com
