**INQUIRY INTO NSW WORKERS COMPENSATION
SCHEME**

Name: Ms Glenda Ireland

Date received: 27/05/2012

workerscompinquiry - concerned

to whom it may concern,

I wish to express my concerns after viewing the report to abolish the workers compensation.

I am one of these people, and i think it unnecessary to abort us hard working people in the community. we're hardworking people and need this support for ourselves and our families. Show some compassion for the hardworking australians, Being injured has made my life unbearable at times and the extra costs of travelling,medications and treatments. the time off to heal has all been needed to get me back to good health and able to support myself again .Trying to live through the pain daily and fighting depression from a total lifestyle change has made it hard enough but then for you to take our support of travelling expenses and medication and medical bills. it's appalling, take this opportunity to realise who needs the the support we went to work to earn a dollar, not thinking oh i might go to work today and break my back amputate a limb or have a car accident etc.Life is full of surprises and this calculation of your support to the hardworking people in todays workforce is a surprise!

yours truly

Glenda ireland
