INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Kerry McLean

Date received: 26/10/2013

Inquiry into Grey Hound Racing

It is now 2013 and nothing seems to have changed in the greyhound racing industry.

Doping is rife. Unwanted dogs and puppies are usually disposed of inhumanly. Corruption is rife. Penalties and orders do not seem to be implemented or imposed on trainers abusing the system.

Self-regulation is not a given for this industry. Very strict regulations on breeding, doping, gambling etc need to be introduced and policed.

A policy of one strike and you are out needs to be introduced, and out means out for life.

The industry needs to be cleaned up and if this inquiry is not serious the whole process is a waste of time.

Please bring this industry into the 21st century or close it down. There is more to life than greedy people making money out of the majority of dogs suffering.
