

**INQUIRY INTO USE OF CANNABIS FOR MEDICAL  
PURPOSES**

**Name:** Name suppressed  
**Date received:** 12/02/2013

---

Partially Confidential

Cannabis is the most effective medicine i've ever encountered as well as the most misunderstood and lied about substance in history.

The range of uses cannabis possess are astronomical and anyone willing do take a few minutes to research this will realise the truth. The public have been lied to repeatedly for so long but we are no longer ignorant, around the world people are waking up to the truth of the matter every day and realising that this plant has the power to do so much good for the world, and we all know we're at a stage where that is very needed.

Please, educate the public, and let people who choose to use cannabis do so freely. having no addictive capacity and being impossible to overdose on, there is no reason at all that people should be denied this right. they are not being protected, they are being controlled.

Thank you for your time and for your consideration of this delicate issue that needs to be righted NOW.
