**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN
NEW SOUTH WALES**

Name: Miss Chaitanya Morly-Southall

Date received: 28/08/2012

I hereby submit regarding the management of public land in NSW, including state forests and the national park estate. I believe that these lands are important reservoirs of the natural environment and provide a safe place for countless animal and plant species who deserve complete protection. I feel that these areas should be maintained with respect for the forementioned species in perpetuity. This obviously would require a complete ban of all hunting activities within the public lands, state forests and national parks. I feel that recreational activities should be allowed to some degree but minimal development of facilities should be considered. Yours Sincerely, Chaitanya Morly-Southall
