

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 16/02/2013

Partially Confidential

Marriage is a beautiful and wonderful thing that has been around since the beginning of time. It is meant for one man and one woman so that we can procreate and increase our human race. It allows us to provide stable and strong environments where children can be raised and encouraged to be all they can be. Children should be our greatest concern and changing the definition for marriage will affect our nations children in a very negative way by taking away the opportunity for our children to develop freely.
