

## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

Dear Mr. O'Farrell,

I am writing to object to the proposal to change in marriage laws to allow couples of the same sex to marry. Equality cannot be granted where equality does not exist. Male/male or female/female relationships are not equal with male/female relationships. Even the animal kingdom knows it takes one of each sex to make a viable partnership (i.e. able to reproduce) If the homosexuals want to make their relationships permanent, let them find another form of union, but leave marriage alone. Centuries of tradition should not be overthrown to suit a minority of confused people.
