Summary

Greetings,

I live in Tyagarah, close to Byron Bay. In order to bring my kids to school, I have to use the Hwy and with all the B doubles on it now, I find it a frightening affair.

Also, we moved out to the country about 8 years ago. Since the new Highway and the b doubles at nite, the noise has increased tremendously and as I understand it, the surface used on the highway is the most noisy. My family would love the b doubles use an altenate route. Yours sincerely, Isaac Shapiro
