INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mrs Judy Ryan

Date received: 31/01/2013

I believe that Adults have the right to marry who they love. Who cares if it's a man and man or woman and woman? What gives heterosexuals the right of superiority over gays and lesbians? This is the same type of prejudice thinking that we have fought against before. Why should we only be allowed to show our love for one another if we are a man and woman together? I married my husband because I loved him so I think all adults should be given the same respect to marry whomever they love.
