

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Miss Hannah Kirby

Date received: 14/02/2013

My partner and I are travelling to Argentina in April to get married. Argentina is one of only a handful of countries where we can legally celebrate our union with marriage.

It would be wonderful to be able to do this in our home country so that all of our friends and relatives, all of whom are very supportive of our union, can celebrate with us as they would any heterosexual couple.

I see no difference in this day and age between same-sex and heterosexual marriage. The question 'What is Marriage' should no longer be based on 'man and woman'. This is a progressive world people....!!
