## INQUIRY INTO BACK END HOME DETENTION

**Organisation:**

**Name:** Ms Kathryn Aiken

**Telephone:**

**Date Received:** 10/07/2004

---

**Theme:** Submission to Back End Home Detention lodged by Kathryn Aiken

**Summary:** I think that Back end home detention should be allowed for all inmates in there final 12months of sentence. This would aid in there rehabilitation and enable them to commence employment and re enter and re establish family relationships. It would free up the corrective services jails as the C3 inmates would be at home at not just at the jail of a night and weekend .

The inmates eliglbe should still have to wear the ankle bracet and be tracked through probahtion and parole and should have to report to probahation and parole once a week .If they mis use the privelage of bank end detention then probahation and parole would be aware of it through tracking there movements.

All inmates should still be drug and alchol free whilst on the program.It should be the Governors recomendation that entiltes inmates to back end leave based soley on the record in jail .
