**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN  
NEW SOUTH WALES**

It is very clear that all State government departments related to the administration of lands are committed to taking control of private property or using national parks and State reserves for the purpose of accruing BioBanking credits ahead of any private usage. This is being achieved through LEP's and native vege legislation. It is hard to fathom that a community's enemies are those within governments who choose to manipulate LGA's and disenfranchise private landowners. I am a witness to this.
