INQUIRY INTO GREYHOUND RACING IN NSW

Name: Miss Taylor Pini

Date received: 24/10/2013

There must be attention given to the over breeding and excessive "disposal" of unwanted greyhounds - adoption programs are simply not enough to deal with such a huge number of dogs. The allegations of doping in the industry are beyond concerning - if such practices are happening, they need to be investigated by OUTSIDE, objective bodies that aren't in any way involved in racing. A big concern is the conflict of interest represented by Greyhound Racing NSW's role in establishing and enforcing standards for the treatment of animals in the industry.
