Please allow more access to public land. Land lock outs do not help anyone it only helps to encourage bushfires. We need controlled grazing to prevent bushfires, we need good roads in our forests and national parks so we have some chance of fighting fires. We need more access for licensed hunters to control feral animals instead of cruel 1080 poisoning by national park rangers. Maybe for a small fee there could be a recreational license for forest and national park users. Money made could go into road upkeep and fire prevention. Please allow access for everyone not just radical greens who want everything locked up and poisoned.
