THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Mr Michael Hauswirth

Date received: 24/09/2008

I feel the north west sector needs improved transport infrastructure in the way of a rail line direct to the CBD. Why allow population growth the size of Canberra to go ahead without immediately addressing the urgent transport needs of the population ?. Is it because the area is in a safe liberal seat ?. Any future develop must be halted untill a rail line can be introduced.
