request for an inquiry

4 years ago in Sydney an old lady from the rich suburb of vaclus ran with her car into me my wife and the 3 children the screaming and the sight of blood all over my wife and children made me lose my mind

the old lady never said to say sorry her insurance company allianz which accepted liability should and could help but instead left us to charity—more than that despite of doctors orders allianz avoided systematically funds and medical care and prevented my rehabilitation while keeping the interests in the banks up to 4 years by now.

among 8 specialists which clearly indicates my mental injury there is the federal body called center link which assessed me and found me highly disturbed

allianz sent us to its doctors who were paid well in order to give an unrealistic evaluation—obviously we couldn't compete with allianz

the accident was the first trauma and then we were tormented by allianz up to 4 years by now so the target is to weaken us to the point that we settle for the convenience of allianz or commit suicide so allianz won't pay anything

now after 4 years allianz is responsible to the fact that I lost my wife I lost my children I lost my physical health I lost my mental health I lost my home—I am homeless who lives in a garage living in nightmares drink in order to sleep and awake in order to drink things that I never knew before.

I've been left with out any means to see my psychiatrist in order to take medications or see my gp in order to have further operations on my shoulder.

Yes accidents do happen and that's why we pay insurance—but in this case Allianz is directly responsible to the destruction of my family after the accident—alliance could save my family but chose to keep records perfect by avoiding doctors orders, by neglecting both injured parents while there is no one to take care of the babies - and this is a crime—I call for the allianz ceo to stand on trial.

Allianz made this year a billions of dollars record profit on the expense of me on the expense of my wife, on the expense of my children, on the expense of my home

From the other side there is the motor accident authority of nsw which was founded in order to reduce compensations by the 1999 act - so far among the 100% poor victims of car accidents who were assessed by this authority—only 2% were found eligible for compensation—how can an authority with such a task evaluate us and the impact is bad

I am mentally ill but I'm not stupid and if the 8 doctors are write about my injuries then -The nsw government from the premier is responsible for the destruction of my family—the government chose to sacrifice me and my family More than that—in spite of government back up and record profit—alliance kept on raising the premiums on the expense of the Australian driver it is sad to think that in this minute an accident happened some were in Australia

To: Whom it may concern

09/08/2005

This is to certify that _____ aged 40 yrs, was involved in an MVA on 8-10-2002. It is alleged that the patient hit him from behind and pushed his car into a parked truck.

He is suffering from Depression and Post Traumatic Stress Disorder. He is present under the care of _____, is on the Antidepressant Avanza and has had suicidal thoughts in the immediate past.

He and his wife were injured. In the accident he injured his left shoulder and foot. After his injury he had two operations on his left foot in _____. He has been left with a limp in the left leg. He was recently assessed by _____ in Brisbane who has advised him to wear special shoes.

He has left shoulder has been assessed by _____ in Queensland and he has recently had two steroid injections into his left Shoulder. He still has pain every day in his left shoulder. _____ who assessed his back, has recommended rehabilitation at a Sports Centre. So far this has not been approved.

He has attempted to find work on the Gold Coast and has been assessed by the Commonwealth Rehabilitation Service whom have advised him that he is unsuitable for any employment.

These traumas have created considerable stress on his marriage and driven the marriage to breakdown and he and his wife are now going through divorce proceedings.

As a result of this accident he feels mentally and physically damaged, and has led to the loss of his carer-wife, children and home.

Please let me know if you need further information.

Yours faithfully,
