**INQUIRY INTO THE PROVISION OF EDUCATION TO  
STUDENTS WITH A DISABILITY OR SPECIAL NEEDS**

I have been working for nearly a decade as an itinerant teacher supporting a wide variety of schools, including preschools, primary, high schools and support units attached to these schools, to build their capacity to meet the needs of students with physical, mental health and learning disabilities. Particularly I have been closely involved with supporting a mainstream school accepting a student with very severe physical and intellectual disability.
