THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Mrs Wendy Bowring

Date received: 9/10/2008

Roads in the area are terribly congested, especially 8am - 9am. Many buses are overcrowded. Action is urgently needed. Recommend build the Epping heavy rail line ASAP. Heavy rail will link into the rest of the rail system, which will be more flexible for passengers. The Epping-Rouse Hill line should continue past Rouse Hill and loop around to connect to the Parramatta line, which will also increase destination options. School bus routes need to be revised, as population has changed. My daughter needs to be able to get to Baulkham Hills High School and back, and there are no good options for this.
