

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Ms Janice Stokes

Date received: 15/02/2013

Clearly Australia is still a CHRISTIAN country. Gods word clearly informs us of what constitutes a marriage. To neglect the word of God only places us as a nation in peril. You don't have to have much intelligence to understand that wether you believe or don't believ in God's word ,universal principles apply, just like the law of gravity. Gods laws and principles come into effect when you neglect or reject those universal laws.Children and young people of today are confused enough without causing them more heartache in trying to determine what is normal, what is right and what is moral. Please protect our future generations by protecting the sanctity of marriage between a man and a woman as the only legal and recognised form of marriage.
