

## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

Dear Sirs,

As you consider this vital relationship issue, I ask you to consider the facts from God's perspective. He has written an instruction book in which is contained wisdom for life.

One of His passions is to see the care of children, all of whom belong to Him. When our children are brought up in a secure loving family, with father and mother and taught the principles of godly living including respect for others, our Nation will have a harvest of future leaders to govern our wonderful land with wisdom.

The homosexual life style is repugnant to God , who loves all the people He has created, and there is healing for those who are willing to receive it.

I therefore ask you to protect our marriage laws as they now stand, and in our Nation keep the marriage laws as they now stand.

With respect,

Pam Curtis.
