Matters discussed regarding financial recording generally were referred to the GAG submission one contained on the GAG site.

This left question 5 to be answered and discussed and this referred to the accounting of human resources and the need for the GRNSW annual report to show details on staff and their various pay bands etc as contained in other annual reports such as the former authorities and interstate racing annual reports. GRNSW report is consolidated and shows little detail.

A request was made previously to the GAG information officer for details and the compliance checklist is included.

The information officer made reference to the fact that GRNSW is under an Act the 2009 Greyhound Racing Act and is required to present its annual report to parliament therefor it appears that the compliance checklist attached applies and that the specific sections would appear to be "Statutory Body" ARDR Schedule 1 and for consultants PM 2002-07 ARSBR Schedule (1).

Under the circumstances the Round Table asks the inquiry to question GRNSW as to will they provide more comprehensive information in their future annual reports and do they abide by the compliance check list and if not what template do they use to provide their annual report.

Presiding Officer and minute recorder Geraldine Ricketts. 8.10.2013.
