

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Please do not change the definition of marriage in NSW.

Marriage between a man and a woman has served mankind well for millenia, forming the foundation of our society and providing a stable base for raising children.

To change the definition could have an adverse effect on family itself, and life in NSW.

The Commonwealth Government saw fit not to change the definition of marriage. Why would NSW want to undermine that decision?

Man. Woman. Marriage. Family. Children. We cannot do without them.
