**INQUIRY INTO USE OF CANNABIS FOR MEDICAL
PURPOSES**

Name: Mr Jason Budden

Date received: 10/02/2013

G'day,

I completely support the legalization of cannabis. Look at how it is improving the culture of USA. Alcohol is the problem drug you need to focus on. THC has never killed anyone, ever. If you don't believe me, check Wikipedia, Centre For Disease Control and the World Health Organization. Not one reported fatality. It's about time we wake up and smell the buds.

Regards,
Jason
