**THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST
SECTOR**

Name: Mr John Cheung
Date received: 29/09/2008

I moved to the Castle Hill area some 15 years ago on hearing that this area will be getting rail facility, so far nothing has happened. I am sceptical that it will ever happen. My 3 children attended uni. & work in the city, average travelling time 3 hrs daily. A rail service is URGENTLY needed for the Norwest sector NOW. it will cut their travelling time by half and give them more time with their family and greatly benefit all residents in this area.
