

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Ken Smith

Date received: 6/02/2013

The Social Issues Committee,
Dear Committee members,

I want to express in the strongest terms my opposition to any law that would legalise Same Sex 'Marriage' or more correctly Same Sex perversion.

1) Such a move would exacerbate the breakdown of family which is the basis of secure and stable society.

2) Such is unnatural and can have unfortunate health problems, both physiologically and psychologically. And such "unions" are usually short term, because they do not satisfy the deep emotional needs of both men and women.

3) Because such a "union" cannot produce children. A good guide for any move is what would the consequences be if the whole population did it? It would result in national suicide for there would be no future generations.

4) It is normal for children to have the role models of both a father and mother to grow into mature and well-adjusted citizens. Children adopted by Same Sex couples would not develop well socially and would inevitably be subject to unfortunate jibes from their peers.

5) Marriage is a matter for the Federal Government, not State Government, so don't waste more time on the issue.

6) Marriage has always historically been between a man and woman in all cultures, so we should not spoil a time-proven institution.

7) To claim that Same Sex "marriage" is necessary for equality is nonsense; a misrepresentation of the issue. All men and women have the equal right to marry one of the opposite sex except for close relatives. And why rule out close relatives? Because it can have bad congenital consequences. I think that is equally as bad as having no children at all.

8) Lastly, Same Sex "Marriage" is immoral, a perversion. If we go against God-given guidelines in Scripture (eg. Matthew.19:4-5) we will suffer the moral and social consequences we deserve as a nation. We cannot have stable government and society if we deliberately flout His laws. The increasing chaos and lawlessness in Australia is directly a result of ignoring God, and His standards given us in the Bible. People who promote Same Sex perversion are the whiteants of society and their regressive deviant propaganda should be resisted.

So please, Committee Members, do the right thing by Australia and reject this anti-Australian move to legalise Same Sex "Marriage"

Sincerely,
Ken Smith
