INQUIRY INTO HOME SCHOOLING

Name: Revd Keith Sharples

Date received: 4/08/2014

My daughter has been home schooling our two grandchildren for the past 6 years. For each of them it has been a most advantageous choice and one which has enabled them to achieve most acceptable levels of education.

Since it is the parent/s who have responsibility for assessing what form of education is best for their child/children, I strongly support the retention and endorsement of this form of education in NSW.
