## workerscompinquiry - Fwd: Reg: Changes to Workcover entitlements

---

>>> Anna Narayanan

Hello Hon. MLC.Mr.Robert Borsak

This letter is to protest against changes to the work cover entitlements. Nobody wants to be injured and suffer the pain and loss of earnings. It is an accident and it happens at the work place for whatever reason. The net result is - the person is either partially or totally incapacitated due to the injury which is accidental. As a politician, law maker - you should aim to look after the taxpayers at their difficult times.

I am an injured worker, desperately wanting to return to full time work, struggling at home due to my injury, at work - being intimidated by other people around, not physically able to do what I should be doing, loss of earnings.

What can you do or how can you help me out of this. Mine is a permanent injury and the pain I am suffering is inexplorable - only to be experienced to know what it is like. Think about people like me before you do anything.

Regards

Anna Narayanan
