To whom it may concern,

I am writing this in support of the growing, production & use of medical cannabis, I am a 60yr old male & I have found a great relief in it's ability to relieve joint pain as well as promoting appetite. For the life of me I cannot understand why with so many medical uses cannabis is still seen as counter-productive to society, honestly any right thinking person would have to allow it's uses for medical applications to do otherwise would deny all the benefits of this most amazing plant, Burri Jerome
