INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Felix Hubble

Date received: 30/01/2013

In a secular country it is ridiculous to prevent two consenting adults from achieving a union of happiness that is legally binding and respected by the state. As such I find it disgraceful and disgusting that my state has up until this point failed to recognise, allow and legalise same sex marriages, something that should be ratified at the earliest possible point so that homosexuals do not remain in a legal subclass, second to heterosexual Australians
