The Director
General Purpose Standing Committee No 4

Dear Sirs

I, Antoniette Bosch, am a casual worker at Oneida International, Designer Outlets Liverpool. I would like to express my feelings on how all this is going to affect me and my family and how disappointed I am in the outcome after putting in a big effort in finding a job that suits me very well and my family.

Being a mother of three children and a housewife I was struggling for 14 years at home without having much money, trying to pay a mortgage, paying for household bills and endeavouring to give my children the best opportunities in life.

After much effort in seeking a job for a very long time making time for interviews etc I have now secured this position at the Designer Outlets. I am certain that I do not want to have to go through all this again and further more don't want to go back to trying to make ends meet. I like my current position with Oneida, due to the flexibility of my hours and I enjoy the company of all the staff I work with. I live in the local area surrounding Liverpool and I am sure you will understand the predicament I would be in if I found myself without a job. Considering the high unemployment rate within the local area of Liverpool, I feel that my job could not be replaced with any other position another company could or would offer me due to the flexible hours I need to have in order to take care of my children.

If the Government cared for the well being of their voting public, local, state and federal, they would not close the Designer Outlets and risk the livelihoods of so many people like myself

Yours sincerely
