

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 15/10/2013

Partially Confidential

I do not think it is fair that prizemoney is so poor in NSW compared to Victoria. This means that we need to send some of our dogs to Victoria to race in order to get a fair return for them. If NSW prizemoney was better, all our dogs would race in NSW. We only send them to Victoria because we get a fairer return there. This means we can continue to participate in our sport and look after our dogs better.

We need to also have a look at how our GRNSW board is elected as we need people in charge who really care about our sport and look after the owners breeders and trainers as we are the ones putting the costs into looking after and caring for these greyhounds and with all the costs going up in doing this and our prize money not increasing it's getting hard my husband and I both work full time jobs so so that our greyhounds get the best of everything because we can't rely on prize money .

All I ask is our fair share
